open the door for you."

As she spoke she unbarred the door and I rushed into the street without even thanking her, the ungrateful wretch that I was! But I was so terrified, the danger was so pressing, the sky so dark. The weather was abominable not a star was in the heavens, not a lamp alight; it blowed and snowed. For half an hour I hurried on without once pausing to take breath. My horror may be imagined when, raising my eyes, I saw that I was in front of the Pied de Moutan. In my terror I made the cuircuit of the neighborhood, perhaps, three or four times. My legs were weary and mud-covered, my

knees bent under me. The public-house, so recently deserted, hummed like a beehive; lights were passing from one window to another. No doubt it was full of police officers. Down-hearted, exhausted cold and hunger, desperate, and not knowing where to find shelter, I then took the most singular of all resolutions.

'Faith!" I said to myself: "If I am to die, I can but die. As well be hung as leave my bones on the road back to the Black Forest.' I went into the public-house, therefore, to give myself up to justice. Among the shabbylooking individuals with battered hats and merning, and who were now prying and ferreting all over the house, there was, seated before a table, the high bailiff, Zimmer, dressed in black, with grave air and penetrating eye; and Secretary Roth, in his red wig, with his imposing expression of face and his broad, flat ears, like oyster-shells. Hardly any notice was taken of me, a circumstance which at once modified my resolution. I took a seat in one of the in company with two or three of the neighbors, who had come to see what was going on, and I calmly asked for a measure of wine and a plate

Annette, having lit a candle, conducted me to the chamber named, and when we were alone, "Ah Kasper! Kasper!" she cried out of the simplicity of her heart, "who would ever have thought that you belonged to the band? I shall never be happy again after having loved a brigand."

"You, too, Annette!-you too!" I cried in despair, throwing myself on to a seat. "This is more than I can bear!" I was ready to burst into tears. But she in-

stantly repented of her injustice, and came and threw her arms about me, crying: "No! no! you are not one of the band! You are too gentle for that, my good Kasper; but, for all that, you are very venturesome to have

come back!

I told her that I had been dying of cold out doors, and that that alone had decided me. We remained for a few moments thoughtful, and then she left me, for fear of arousing the suspicious of Mother Gredel. When I was alone, after having made sure that the windows did not open on to any wall, and that the bolt of the door acted properly, I thanked the Lord for having saved me under such perilous circumstances. Then, lying down in bed, I slept pro-

On drawing aside the curtain of my bed, I remarked that wall; I eringed into the smallest possible the snow was piled on the window-ledges; the windows were all white with it. was making all clear to my mind. "Oh!" I cried to myself, "if chance should have placed the murderer in my hands, my poor comrades will have been saved!"

With my eyes I followed the foot-marks, which were continued with surprising clearness on to the nearest roof. At that moment some words of the examina-

tion reached my ears. The door of the room in which the inquiry was taking place had been opened to admit air. I heard: "Do you admit having, on the 20th of this month, participated in the murder of the high

"It is strange." muttered the bailif, "and a great deal modifies the situation of the accused. But how do you account for the presence of the murderer in the cellar of the public-house?" I simply informed him of all that had taken

place the evening before, from the arrest of my commides to the moment of my flight. And then, turning to the chief of the police,

The look and tone of Madoc admitted of no thing and everything required of her, so long as she was secured from the brigands. "Don't distress yourself about them," replied

Madoc; "we shall remain here all day and offer. I accepted.

We sat down therefore to a ham and a jug of

Rhine wine. Other persons came in and took their customary drinks, provoking the confidence of Mother Gredel and Annette; but they took great care not to speak in our presence and were extremely reserved; which was highly meritorious on their parts. We spent the whole afternoon smoking pipes and drinking odd glasses and mugs of wine;

the jingling of glasses, and the clatter of cans.

But at nine o'clock, after the visit of the

watchman, everything changed its complexion. Madoe rose and said: "Now, then, let's get to business. Fasten the door and shutters gently. You, madame, and you, mademoiselle, go to bed."

These three abominable tattered and seedy men had themselves much more the appearance of brigands than of guardians of law and order. They drew from their trowsers iron rods, armed at the end with a ball of lead. Brigadier Madoe tapped on the pocket of his overcoat to assure himself of the presence of a pistol. A moment afterwards he drew it out to put a cap on

out the candle. I lay down, inwardly praying to the Lord to send the assassin. The silence, after midnight, became so profound that one might almost have doubted that

The hours passed slowly, slowly, I did not sleep. A thousand terrible ideas came into my head. I heard the clock strike one-two; still nothing appeared. At three o'clock one of the police officers

stirred-I thought the man had arrived-but all again became still. I began to think that Madoc would take me for an imposter, that he would be terribly angry, that he would maltreat me next day, and that, far from having saved my companions, I should be chained with them. After three o'clock the time appeared to fly with extreme rapidity; I could have wished that the night would last forever, so as at least

to leave me a ray of hope.

As I was thus, for the thousandth time, sifting these ideas, suddenly, without my having heard the least noise, the window was pushed open-two eyes glittered in the opening-nothing stirred in the loft.

The head still remained there—attentive. One might have said the scoundrel suspected something. Oh! how my heart gallopped! how the blood coursed through my veins, while the cold perspiration covered my face! I no longer

Several minutes passed in this manner; then suddenly, the man appeared to decide, and dropped into the loft with the same precaution as on the previous night. At the same moment a terrible cry-a cry, short, thrilling, rang out:

"We have him!" Then the house was filled with uproar-ex lamations, stampings, hoarse clamors, freezing me with terror. The man roared, the others panted; then there was a fall, as if the door was being crashed through: after that I only heard the grinding of teeth and the rattle

"Light!" cried the terrible Madoc. And, while the sulphur flamed, casting its hastly blue light throughout the room, I vaguely distinguished the police agents sitting on the man in shirt sleeves; one held his throat, the other pressed his knees into the villain's chest; Madoc closed the handcuffs on his wrists with a force enough to have broken the bones. Linderman, director of the Mint. The obverse design contains a sitting figure of "Liberty," with the word "Liberty" inscribed on the shield, the whole surrounded by thirteen stars. Beneath the figure the date "1875." On the reverse the figure of an engle surrounded by the inscription, "United States of America." and beneath the engle the words, "Twenty Cents." At Dr. Linderman's suggestion, the edge or periphery of the coin will be perfectly smooth, in order to distinguish it from the twenty-five cent coin, which bears a reeded or fluted edge. As the piece is too small to admit the legend. "E Pluribus Unum," or the motto "In God we Trust," both have been omitted. A GRAND WEDDING IN NEW YORK. The largest and perhaps grandest wedding New York for years was celebrated on Tueslay afternoon the 4th inst., at Calvary church. The bride was Miss Alice, daughter of Murray H. Smith, and the bridegroom, William Van derbilt, Jr. son of W. H. Vanderbilt and grandson of Commodore Vanderbilt. The wedding was followed by a reception at the residence of the bride's father, in which ever two thousand participated. The house was thrown open from basement to roof, profusely decorated with flowers and brilliantly illuminated. The parlors were a bower of roses, the bride and bridegroom reclining under a canopy of flowers. The wedding gifts were valued at over \$500,000.

RELIGION OF OUR PRESIDENTS.

Christian church. There is a tradition that Washington asked permission of a Presbyterian minister in New Jersey to unite in the communion. But it is only a tradition. But that office required no more piety than it would take to be a mate of a ship.— There is no account of his communing in Boston, or New York, or Philadelphia, or elsewhere, during the Revolutionary struggle .-Adams was a member of the parish in Prainat worship was not very constant. Jefferson was an avowed skeptic, and a devout admirer may have some grace. Has the Senator forgotten how much this nation owes to Virginia?

The Priestly. Madison and Monroe were session of Congress. In the afternoon he worshiped in the Second Congregational church, where he had a pew. When Congress was not he left office. Van Buren, trained in the Re-Church, when he attended any. His Sabbath afternoons were devoted to his political friends. Harrison cared very little for religious matters. Tyler was loose in regard to Sabbath and worship. Polk, though not a professed christian, was a regular attendant on public worship.— He was always in his place. He rode to church Sabbath morning, and occupied the pew next to the one in which Jackson sat. Colonel Benton occupied the Jackson pew, and would not give it up. In the afternoon Mr. and Mrs. Polk walked to the Second Presbyterian Church, which was near the White House. General Taylor seldom went to church. Filmore, more than any other of the Presidents, was an open and decided Unitarian. He gave his influence and support to that sect. Pierce was always at church on Sabbath mornings. He attended the Presbyterian Church. Buchanan was an Old School Presbyterian. The church was near his residence. The building was small and poor. He was not a very reverential worshiper. He walked to church, went up the aisle at a shuffling guit, dodged into his pew, and, seated in the corner, seemed wrapped in his own thoughts, paying no attention apparently to the service. An observer could not tell whether ne was asleep or awake. He harried away, as service once a day. He always seemed to be in agony when in church. His legs were long, he pews narrow, and he often relieved him self by putting his feet outside the door, stretcthncomfortable. WHAT GENERAL GORDON THINKS OF

THE SITUATION. General Gordon, of Georgia, has recently given expression to his views about the politieal condition of the country. He seems very hopeful and evidently there is a better and a brighter day ahead of us. Of course he looks to the Democratic Party for the redemption of chants that the consumer has to pay at least the South and for the salvation of the country generally, and he believes if that party shall act with its accustomed wisdom and honesty in framing its platform, it will have no difficulty in electing whatever candidate it may nomi-

ate for the next Presidency. Senator Gordon thinks there are four cardinpurposes that ought to be incorporated into our platform to insure success and then adhered to by the party to insure peace.

These cardinal purposes are: 1st. An honest purpose to reform the abuses of the Radical party, to administer the government fairly, and to dispose of its revenues hon-

TERRIBLE SUFFERING AND DEATH .- An ex-

traordinary story of suffering and death comes from Montreal. It is related that news was received there of the death of Mr. James Morrison, aged about forty-five years, a very respectable farmer of Gore township, Argenteuil county, province of Quebec. It is stated that a few days ago his wife and son left the house for a visit of two or three days, leaving him alone. A storm coming, he hitched up his horse and began "breaking" the roads. While so doing he fell between the slats of the sleighshafts and was kicked by the horse which van nights and two days, when his horse, which was starving, forced itself into the house, and in searching for food tramped on him. He at last managed to tie its leg to a large cooler,

Poultry breeding has now come to be regarded as important a branch of farm industry as the raising of swine and sheep. In one senso f afraid to be addressed. Lincoln attended it is of more importance, in that it is not every farmer who can keep sheep or swine with advantage, but every one who owns or rents a plot of land, if only the size of a city lot, can ing them across the aisle. Yet it is but a few years since the name of poultry-breeders seem to convey the idea of insignificance. Now, however, the proprietors of large stock farms have their flocks of pure bred fowls, which their share of attention and study as well at the honored cattle and horses; and the net income from a well managed poultry yard is no small addition to the farm receipts.

STAY WHERE YOU ARE.

One of the greatest drawbacks to prosperity is the restive, roving, and unsettled spirit of the people. Each one imagines that there is an El Dorado semewhere, or that some section is more presperous than his own, and that he must get to it before he can accomplish anything. The idea unsettles him, and if he does not "pull up" and migrate at once, he is forever thinking about it, and neglects to improve his present home and farm. The delusion has been wide spread since the war, and much individual disaster has been the result. The curse of Reuben seems to rest upon the people. It is a great mistake. Contentment is the great secret of life. Old Horaco struck the right key when he said: "Happiness depends not upon place nor climate, but upon the state of one's mind." "Rolling stones gather no moss." and the experiment of selling out and moving, in the hope of bettering the condition,

Confederate memorial day was observed at Augusta, Ga., on the 20th ult., with unusually imposing ceremonies. There was a large parade and procession, and the corner-stone the monument in honor of the Confederate dead was laid. In his speech General Evans said:

THE THIRD TERM SECRET OUT AT LAST .- It seems that Senator Sargeant, of California, is the medium selected by the President to make known his views on the subject of the third term. It comes rippling across the continent over the wires from California. It was a dinner to Gen. Crook, with Sargeant on his feet responding, as before stated, to the usual toast to the "President of the United States." It was then that Sargeant is reported to have distinctly said that he had heard from Gen. Grant's own lips that he desired to retire from the Presidency of the United States. According to Sargeant, the President said that he had no rest for six years; that there were two years more of this labor to endure, and that he would be glad when the end came. This we notice is accepted by several newspapers which have been anxious upon this subject as settling the third term question finally. And so that

matter is disposed of. But isn't it queer that

The extraordinary means by which the election of Mr. Spencer as United States Senator from Alabama was secured, are not unknown, but the investigation now in progress at Montgomery throws some new light on the subject. A Ku-Klux outrage was exploded the other day by the testimony of a once valiant Republican who fired a builet through his own hat, and then, in pursuance of the Spencer programme, had the military called out for the apprehension of the fictitious assassin who had attempted to take his life. Fortunately for Alabama the day when such fellows could hold the political destiny of the State in their hats has passed away. At the election in Montgomery hours. nearly one half of the colored men voted with the whites for the first time since Reconstruction, and the result was a defeat of the carpetbaggers, which seems to have thrown the good people of the city in ecstasy. It is worthy of note that one of the successful candidates is an ex-Confederate officer who recently distinguished himself by a glowing tribute to the memory of the Federal dead.

WRECK OF THE SCHILLER,

Friday night the 7th inst., by the wreck of the Seilly Islands, about 35 miles from Lands End, England. disaster have been received:

A heavy fog prevented observations on board the Schiller since Friday. In consequence of the fog the engines were put at half speed and sail was reduced at 9 o'clock on Friday night. At 10 o'clock the same night the ship struck the ledge. A great panic prevailed. Captain mission boards. Thomas is highly praised for his conduct during the terrible scenes which followed. Two boats were filled with men, who refused to come out. The captain fired his revolver over their heads to drive them out, and then fired at them, without effect. Afterward the ship was washed with her broadside to the sea, and all on board these boats perished. The tackle at the sterns was released too soon, leaving the boats suspended by the bows.

Three boats then got away. One of them, a life-boat, was so badly injured that she sank, and 11 of the people on board of her were rescued by the other boats.

The fog lifted an hour after the steamer struck, and the lights were plainly visible. Two of the boats on the steamer were crush-

> The deck-house, crowded with people, was swept away at 2 A. M.

The captain gathered some of the survivors on the bridge. All were gradually swept away by the flood tide, which took the dector and captain last.

The rigging which remained above water was crowded with passengers and crew all night. The mainmast fell at 7.30 A. M. and, being, of iron, sunk with all who had taken refuge on it. The foremast gave way soon afterward. Life-boats and wreck-stuff saved the ives of some who drifted miles away, One man was rescued after being in the water ten

Two boats from St. Agnes arrived a short time before the masts fell. They were unable to approach the steamer on account of the shoals, but picked up stragglers in the water.

PENNERY VS. BRINK & ESTES :- This case, from Davidson county, was taken up yesterday morning. THE THIRD TERM SECRET OUT AT LAST .- It seems that Senator Sargeant, of California, is the medium selected by the President to make known his views on the subject of the third term. It comes rippling across the continent over the wires from California. It was a dinner to Gen. Crook, with Sargeant on his feet responding, as before stated, to the usual toast to the "President of the United States." It was then that Sargeant is reported to have distinetly said that he had heard from Gen. Grant's own lips that he desired to retire from the Presidency of the United States. According to Sargeant, the President said that he had no rest for six years; that there were two years more of this labor to endure, and that he would be glad when the end came. This we notice is accepted by several newspapers which have been anxious upon this subject as settling the third term question finally. And so that matter is disposed of. But isn't it queer that the President should have sent out this information to the world through Sargeant, by way

MARINE DISASTER,

WRECK OF THE SCHILLER,

We chronicle the mournful intelligence that three hundred and forty-two lives were lost on Friday night the 7th inst., by the wreck of the steamship Schiller of the Eagle line, off the Seilly Islands, about 35 miles from Lands End, England. The steamship was entering the English Channel on her passage from this port to Hamburg, via Plymouth and Cherbourg. A heavy fog prevented observations on board the Schiller since Friday. In consequence of the fog the engines were put at half speed and sail was reduced at 9 o'clock on Friday night. At 10 o'clock the same night the ship struck the ledge. A great panic prevailed. Captain mission boards. Thomas is highly praised for his conduct during the terrible scenes which followed. Two bonts were filled with men, who refused to come out. The captain fired his revolver over their heads to drive them out, and then fired at them, without effect. Afterward the ship was washed with her broadside to the sea, and all on board these boats perished. The tackle at the sterns was released too soon, leaving the boats suspended by the bows.

Three boats then got away. One of them, a and 11 of the people on board of her were rescued by the other boats.

The fog lifted an hour after the steamer struck, and the lights were plainly visible. Two of the bonts on the steamer were crushed by the falling of the funnel.

Rockets and guns were fired from the steamor until the powder became wet.

The deck-house, crowded with people, was swept away at 2 A. M.

The captain gathered some of the survivors on the bridge. All were gradually swept away by the flood tide, which took the dector and captain last.

After the funeral his rooms were examined and a will found, together with a package containing \$94,-000 in government bonds, and a bank book showing a deposit of \$10,000 in a bank in New York City. How Cotton Mills Pay.-The annual meeting of the Graniteville Cotton Manufact. uring Company, South Carolina, was held last week. The report of President Hickman shows that the profits of the year were \$114,588, trifle over nineteen per cent. of the capital stock. This result is very satisfactory and encournging, for the year was confessedly a hard one for cotton mills, and many in the North either ran on short time or stopped altogether. The Graniteville mills were run on full pay during the whole year. Their productions were 10.526.500 yards of fabrics, besides a quantity of knitting yarn; 8,171 bales of cotton were consumed, which cost 14-38-100 cents per pound. SHARP.—The Wilson Plaindealer learns that pedler, a few weeks since, passed through Edgecombe and adjoining counties selling dry goods which the people were induced to buy by the following ingenious device. He engages to sell to the persons where he visits, such articles as bacon, flour, melasses and other groceries at about one half the price they can usually be bought for, anywhere hereabouts, much less than they cost in New York, of course .-After engaging these goods to be delivered a certain day named when they are to go with carts or wagons to the nearest depot for them to be paid for when delivered or when convenlent, the pedler offers a choice lot of dry goods and other articles which he claims to be cheap in proportion to the groceries. Having proven imself to be a regular "Cheap John" on grocerles, it often turns out that they are ready to

the purchaser not usually being a judge of such goods. And so it very often happens that a

DEATH OF JAMES T. MOREHEAD, SR.-We record with sorrow the death of James T. Morehead, Sr., which occurred at his residence on Tuesday afternoon, 4th inst., about 6 o'clock. He returned from Rockingham county about 2 o'clock, P. M., on Monday, complaining of chills, east his vote and went home, and took remedies. The following morning the chills were very severe, followed by fever. During the day the chills assumed congestive form and he died about six P. M. He reached his 76th year on the 11th of last January, and in his time was one of the first men of his native State. He was an able lawyer, a profound thinker, a deep student, and had filled positions of public trust honorably to himself, and with benefit to his State. - Greensboro Patriot.

CROPS .- During the present term of the Court, we were at some pains to ascertain the extent of the damage done wheat crops by the late cold weather by making enquiries of farmers from different counties, and the result has been that the injury is by no means extensive. Early wheat has sustained partial damage but that late sown comprehending at least three-fourths of the average crop has sustained no damage at present visible. PENNERY VS. BRINK & ESTES:-This case from Davidson county, was taken up yesterday morning. It has been in Court for nine years. and from the tenacity with which it has been contested, the number and character of the witnesses, and the ability of counsel, it is one of unusual interest. Hon. W. M. Robbins, Capt. F. C. Robbins and J. Marsh Clement, Esq., appearing for the plaintiff, and Hons. J. M. Leach, Burton Craige, with W. H. Bailey, J. M. McCorkle and Luke Blackmer, Esqs., for the defendants. Nearly the entire male population of Lexington are in attendance upon Court as witnesses in the case, and there ed of at last; as parties and witnesses have been dragged unavailing to and from Court to Court for nine years. The fight now is more to see who shall pay the largely accumulated costs, rather than upon the original issue. WILSON SHUTTLE SEWING MACHINE

What the Wife said to her Husband.

"Tell me not in mournful numbers, 'Tis but fancy or a dream, Stir your soul from out its slumbers, I must have a Wilson Machine.

'Tis the best; Now in earnest, Go and find where it is sold; Bring with thee, when thou returnest The Machine I can control, Then enjoyment and not sorrow, Shall be my destined end, ble: sel Thus to sew, for each to-morrow

Nearer brings the day of rest. While the Simple Wilson reminds me, I can make my life sublime: And departing, leave behind me Lots of stitches done on time.

Thus I can be up and doing, With a heart to meet my fate; Hemming, Felling, Tucking, Sewing, I will labor while I wait."

TOTHE FARMERS OF THIS AND ADJOINING COUNTIES. We wish to inform you that by the last of February we will have in our Warehouses a large stock of Peruvian Guano and Standard Fertilizers. Our extensive acquaintance with manufacturers and minipulators and familiarity with nearly all brands of fertilizers, together with several years practical experience in the sale and use of them, and by strict attention and close observation. we are enabled to select such brands as will be remunerative to the farmer. There are but few who know a fertilizer by its analysis. You have to judge of its real value by the character of the manufacturer and agents who make and sell it, and more particularly by the results of it when applied on a crop. We offer this year the same brands as heretofore and guarantee the standard to be as high or higher than ever. These are old and reliable brands that have stood the test for years and increased in popularity each season and it is with pleasure that we refer you to all who have used them on tobacco and other crops. We buy in large quantities for cash at lowest prices and secure lowest rates of freight and sell for a very small per cent., not half what we can get by selling some brands offered in market. Come in beautiful dreams, love, Oh! come and we'll stray Where the whole world is covered Where each sound is sweet As the coo of the dove, And the gales are as soft

As breathings of love; Where the dreams kiss the waves And the waves kiss the beach, And our warm lips may catch The sweet lessons they teach

Come in beautiful dreams, love, Oh! come and we'll fly,
Like two winged spirits,
Of love through the sky;
With hand clasped in hand

On our dream wings we'll go, Where the starlight and moonlight

Are lending their glow;

Of purple and gold,

HOW NICK BOWERS WAS CAUGHT.

Nick Bowers was a member of the original Christy Minstrels, and, in his day, was the greatest "middle-man interrogator" known in the profession. Nick used to tell, with great merriment, an incident of his boyhood. preserve the flavor of the relation we will record it in Nick's own language, and only regret that we cannot accompany it with his inimita-

ble gesticulations: 'My old man," said Nick, "as a general thing, was a pretty steady old gent, but once in a while he would get oblivious, and water was not the cause of it. I recollect a certain holiday was approaching, and I had been shinning around to get a little money to have a time with on that day; but the fates and purses were against me. It was but two days prior to the holiday, and I hadn't nary a red. Remember this, boys, when I add that the same afternoon I came to the house, when lo! there on the floor, totally overcome by his libations, lay my respected daddy, and beside him lay six shining half-dollars which had rolled out of his pecket. Boys, I've been an honest man all my life, but once when a boy I committed a theft. I hooked one of those half-dollars. and will never miss it. But mark you, the next morning I and my two brothers were

summoned into my father's presence. The can do old man's face lowered. I thought of the halfdollar and knew that a storm was brewing. "Boys," said he, "last night when I came home I had six half-dollars. One of 'em's gone. Your mother didn't take it. Which one of you took it?"

We all protested our innocence. said the old man, "that half-dollar never walked off, and I'm going to find out which one of you took it."

Turning around he took down from the wall have been taken in exchange, for sale very low an old flint-lock blunderbuss. This he deliberately loaded with powder and buckshot in our presence; then fastening it on the table, cocked it, and in solemn tones addressed us

"Boys, I'm going to discover the thief, and punish him at the same time. You must each of you blow into the muzzle of that gun.—When the guilty one blows, off goes his head. Now, then, you have a chance, will you own up or blow up?"
"Ben," said the old man to my eldest broth-

er, "have you got that half-dollar?" "Take a blow." "Nick, (ch, boys, I tell you the chills began to roll down my back,) have you got that half-

"No, sir," said I, with a defiant swagger. "Blow that gun."

I walked up bravely, gave a blow, and-

dodged! "Nick," said the old man, in a voice of thunder, 'where is that half-dollar?" He had me. The truth dodged out of me .-Said I, "Out in the barn, pap."

There is a man in Danbury, it is said, who has never tasted an apple or cider, the smell being offensive to him. "And yet he is a son KING OF NO-LAND, of Adam," said a witty cotemporary, "what a pity Adam was not a son of his!" This reminds SYLVIA'S CHOICE, us of a good one of Gov. Vance's. Gen. Da popular and prominent politician of this State, who has a weakness for a "wee drap o' the crater," was boasting to the Governor that he JESSE TRIM, had never enten an apple in his life. Said he: "Governor, what a glorious thing for the human race, if I had been in the Garden of Eden instead of Adam." "Not much," said the Governor, "the only difference is, you would have and embrace the best of the late stuck up a little distillery in one corner of the Garden and gone to making brandy .- Charlotte editions.

In the office of one of the hotels of Detroit, recently, a gentleman snapped his finger to a boot-black, and as he put his foot on the box, he said: "You look like a good, smart boy."
"See here, mister!" replied the boy, as he rose
up, a brush in either hand, "I've had that game played on me a dozen times, and now I want to now whether this is a cash shine, or whether you are going to pat me on the head when I get through, and tell me that I'll be Governor of Michigan some day."

A Swiss boatman recently pulled a would-be suicide out of Lake Geneva. An hour or two after, the boatman discovered the same man hanging by the neck to the tree, but did not interfere this time. The magistrate summoned him to answer why he did not prevent the suicide, and he replied that he supposed the gen-tleman had only hung himself up to dry.

NURSERY AGENCY.

Very Choice Trees and Plants. HAVING TAKEN THE AGENCY FOR Mr. G. Bellis' extensive "Butterwood Nursery." lo-As. Bellis' extensive "Butterwood Nursery." located at Littleton, in this State, I am now prepared to fill orders for TREES and PLANTS of the choice-

est and most desirable varieties, and on the most I would call special attention to the new and very early varieties of PEACHES—The BEATRICE, LOUISE and RIVERS—all ripening ahead of Hale. These have now been thoroughly tested in this country, and have obtained the commendation of all who

have seen them.

Mr. Bellis commenced packing his Beatrice, las year, (from 5,000 trees) on the 5th of June, shipped them to New York, where they ALL arrived in PER-FECT ORDER, and sold for \$6 to \$8 per bushel crate.— Here they will ripen from the 12th to the 20th of June Prices of Beatrice, Louise and Rivers \$4 per doz and \$20 per 100. Other varieties as per Catalogue I would also direct attention to the Newman SEED-I would also direct attention to the NEWMAN SELD-LING STRAWBERRY of Southern origin, well known and very highly esteemed for a number of years,— but until recently, closely held in private hands.— This berry is large, of finer flavor than Wilson's and two weeks earlier. remaining in bearing for nearly three months, and is perfectly adapted to our soil and climate. It is a remarkably firm and solid berry.

Prices of Plants.—50 cents per doz; \$3 50 per 100;

A large stock of PURE WILSON'S ALBANY on hand Plants very fine. Send for Catalogue. E. W. LINEBACK. Salem, N. C., Nov. 5, 1874.
